

Software that works for your business...

Shireburn Inventory Manager

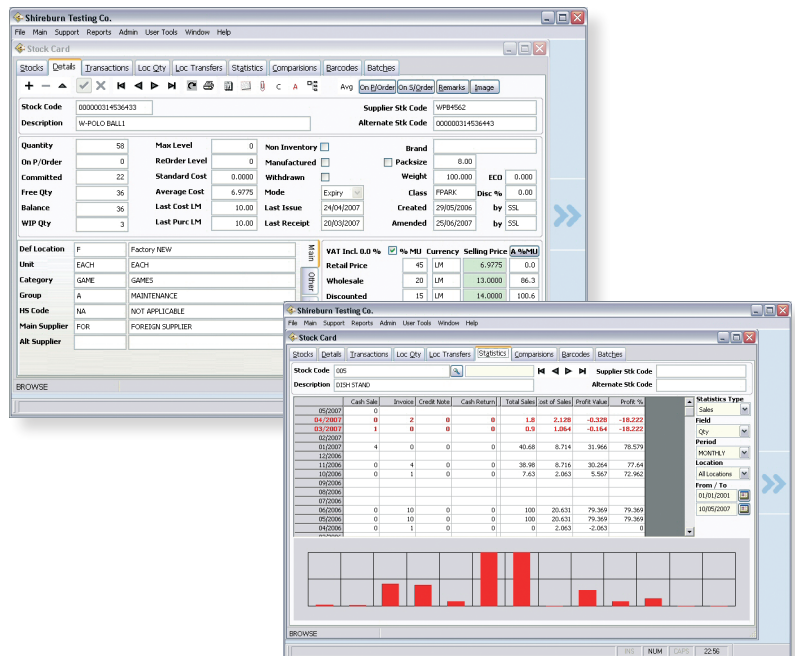

Inventory management is the core of retail, trading and manufacturing operations. Having the right IT solution for your business can make the difference between success and failure.

The Shireburn Inventory Manager (SIMS) is a modular solution that delivers a comprehensive range of features and benefits for companies large and small. Unmatched functionality, ease of use by way of the tabbed user interface and customisable, SIMS provides maximum benefit, while offering flexibility for the inevitable changes in such a fast paced environment.

SIMS can be integrated with the companion products making up the Shireburn Business Suite; Shireburn Financial Manager and the Shireburn Payroll & HR Manager, to enable businesses to react and adapt to market conditions.

SIMS is a modular solution allowing organisations to implement just the modules they require to manage:

Stock Control, Invoicing/Stock Issues, POS, Sales Order processing, Purchase Order Processing, Receipts and Costings, Work-in-Progress, Parts Explosion/Bills of Material and Stock Taking.

What others say about Shireburn Software

"Panta Lesco commissioned Shireburn to build a job costing's module for the contracting and services group and has benefited from upgrades and training throughout the product's lifecycle. The system was designed, developed and delivered on schedule and integrates seamlessly with the Inventory Management and Payroll solutions we have since purchased from Shireburn, enabling us to download data to Excel and Access for further analysis and reporting purposes.

We need to know what we have, what we've done and what we are doing on a daily, weekly and monthly basis – these systems give us visibility across the group. Around 60 people use the Shireburn modules from the shop floor to the top floor – the bespoke elements mean we have been able to create exactly what we need for our diverse business."

Lawrence Mifsud and Martin Vella, Panta Lesco Group

Features of SIMS include:

- »» Unlimited number of stock items / transactions
- »» Unlimited transaction retention
- »» Support for unlimited stock locations for traceability
- »» Support for 6 user defined selling prices in any combination of currencies
- »» Support for PDA's and hand-held devices
- »» Controlled discounting
- »» Sales / Mark-up and margin calculations
- »» Definable custom fields on stock cards
- »» E-mail invoices, orders, quotations etc. as PDFs
- »» Support for reorder levels
- »» Bar code functionality – use and print
- »» Receipts and Costings module allows calculation of landed costs, mark-ups and pricing
- »» Caters for Maltese market conditions with automated card clearance link to local banks
- »» Parts explosion and component make up
- »» Matrices for colour, size etc
- »» Generates and stores extensive customisable reports to Excel™, Word™ or PDF files
- »» Supports expiry dates, batches and serial numbers
- »» SmartSorting, SmartFilter & SmartSearching capabilities
- »» Purchase order management
- »» Work in Progress functionality
- »» Point-of-sale solution supporting network, ADSL/Cable or pen–drive connections
