SHIREBURN
SOFTWARE 

Established in 1983, Shireburn Software specialise in assisting clients to identify improvement opportunities in their business processes and address them through the development and application of software solutions.

What We Do

- ▶ Development and support of business software products known as the **Shireburn Business Suite**, providing a core set of solutions for accounting, inventory, payroll, point-of-sale, e-commerce, document management and freight amongst others
- ▶ Development and support of **cloud based Shireburn Indigo Payroll** offering easier and more flexible payroll administration to companies based in Malta
- ▶ Development and support of **CA+ Software Solutions for Airports and Malls**
- ▶ Implementation and support of **eSecurity and Business Continuity** measures
- ▶ Provision of **Technical Support and Training services**

Our History

Shireburn Software began as a small software house developing bespoke solutions for accounting, payroll and stock control.

Hard work and vision enabled Shireburn to stay ahead of the local market, and as demand grew, so did the Shireburn team and the range of solutions it developed and supported.

Today Shireburn has grown into a leading software products company committed to supporting businesses in enhancing their operations through increased efficiencies and better business processes.

Shireburn's success story spans local and international markets with highly specialised solutions to address the needs of several businesses.

Our People

Shireburn Software attracts some of the best talent available due to its high integrity and strong work ethic, building an extensive internal skill set geared towards fulfilling our clients' needs and requirements.

Our industry-leading staff retention levels have contributed tremendously in offering consistent and exceptional customer care.

The strong work ethics of Shireburn's leaders permeate within the entire organisation, bringing the company together, working towards one goal. Today Shireburn Software is a 39 strong team.

Our Clients

We pride ourselves with serving an ever-growing list of over 850 clients, from SME's to larger corporations, each with their own business processes and challenges.

Our Vision

We are committed to
continuous development
of our software
with emerging technologies and new practices.

We maintain
high ethical standards
at all times,
enabling us to build solid relationships with our
clients, and continue to set an industry standard.

We consistently work towards
retaining our position as a
leading supplier of
integrated business solutions.

As we expand our team, we continue to
identify niche market
opportunities.

Our Solutions

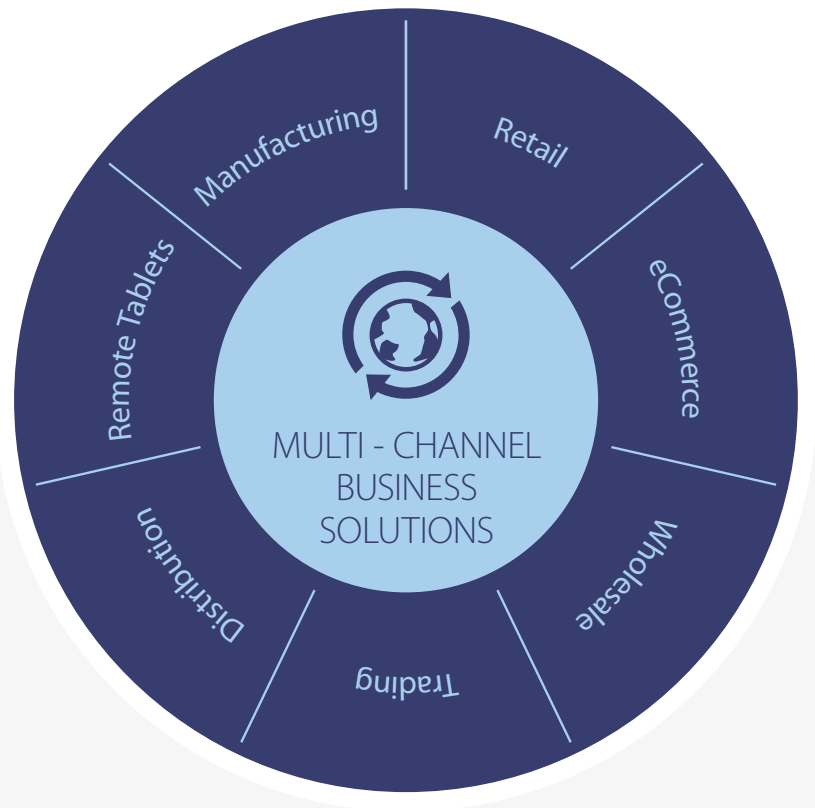

The **Shireburn Business Suite** is a fully integrated 360 degree solution for accounting, inventory, retail and payroll including an eCommerce solution, document management facilities, and industry specific software such as the leading Shireburn Freight System.

Developed and supported by Shireburn Software, **Shireburn Indigo Payroll** is a cloud and web-based payroll solution, with a unique employee portal that allows self service functions such as applying for leave.

Shireburn's solutions provide you with high levels of integration across your business

Shireburn also developed and supports **Concessionaire Analyzer+**, a software solution that enables airports and shopping malls worldwide to better manage and increase their concession-based revenues.

Our **eSecurity and Business Continuity** team focuses on assessing, advising and implementing solutions to secure our clients' data. We are also renowned for **Collaborative Software** for the web and IBM Lotus Notes / Domino, whilst our **Technical Services** team supports all our implementations. Shireburn's **Support and Training** team is focused on continuous training and support for our clients.

Shireburn Business Suite

360° Integrated Business Solutions

The Shireburn Business Suite (SBS) enables effective management of accounting, inventory, point-of-sale, payroll / HR, eCommerce and document management functions within one simple-to-use, integrated solution and allows organisations to automate processes, leverage information and monitor performance. SBS is a modular solution allowing implementation of any combination of modules so that you can invest only in the systems that your business requires.

SHIREBURN FINANCIAL MANAGER (SFM)

Accounting software that grows with your business

SFM is a fully fledged financial accounting solution that combines high-level capabilities with ease of implementation and use.

Easy to use by small to medium sized businesses, yet offering all of the capabilities required by larger organisations, SFM is the bedrock on which hundreds of local companies have built their accounting structures.

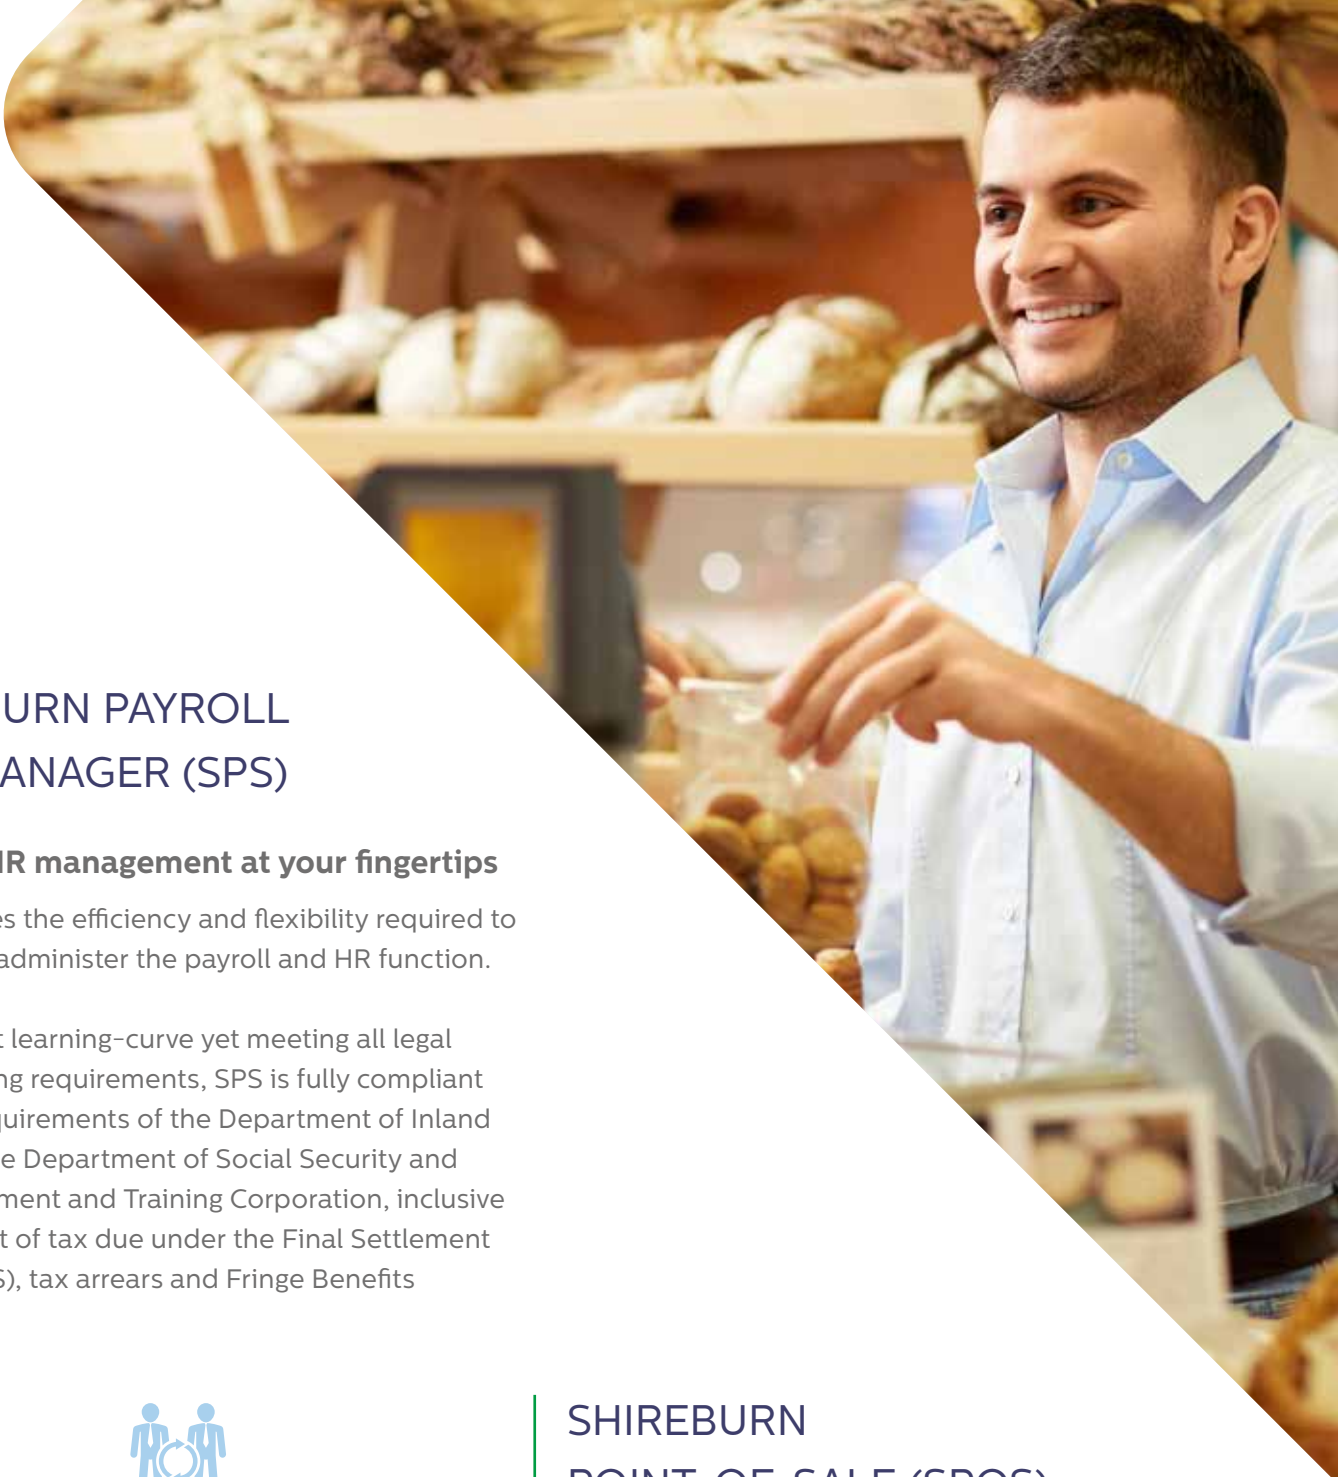

SHIREBURN INVENTORY MANAGEMENT SYSTEM (SIMS)

Optimise inventory management across multiple channels

SIMS is a cost-effective inventory management software solution, scalable for small and larger businesses, and modular to support a variety of different operational sectors, from retail to catering, wholesale and more.

It provides a complete, flexible and practical solution for your business, offering flexibility for the inevitable changes in a fast paced business environment.

SHIREBURN PAYROLL & HR MANAGER (SPS)

Efficient HR management at your fingertips

SPS provides the efficiency and flexibility required to effortlessly administer the payroll and HR function.

With a short learning-curve yet meeting all legal and reporting requirements, SPS is fully compliant with the requirements of the Department of Inland Revenue, the Department of Social Security and the Employment and Training Corporation, inclusive of treatment of tax due under the Final Settlement System (FSS), tax arrears and Fringe Benefits legislation.

Leave Manager

Time & Attendance

SHIREBURN POINT-OF-SALE (SPOS)

Enhance your retail and hospitality channels

SPOS is a leading point of-sale software solution for both retail and catering environments, small to medium sized businesses as well as larger multi-national franchises.

SPOS speeds up the sales process at the till with a fully configurable and easy-to-use display, whilst providing the structure and controls necessary for a robust inventory system.

SHIREBURN TABLET SOLUTION

Sales orders on the move

The Shireburn Tablet Solution is designed to improve business efficiency where operations entail personnel on the move. It allows sales personnel to access SIMS and SFM in real time, whilst going about their daily job. This allows them to access information that they would normally have to return to the office for, view real time stock levels, and process sales orders with immediate online validation.

SHIREBURN eSTORE

Take your business online with ease

Shireburn eStore is a complete end-to-end solution that provides businesses with an integrated solution for online commerce.

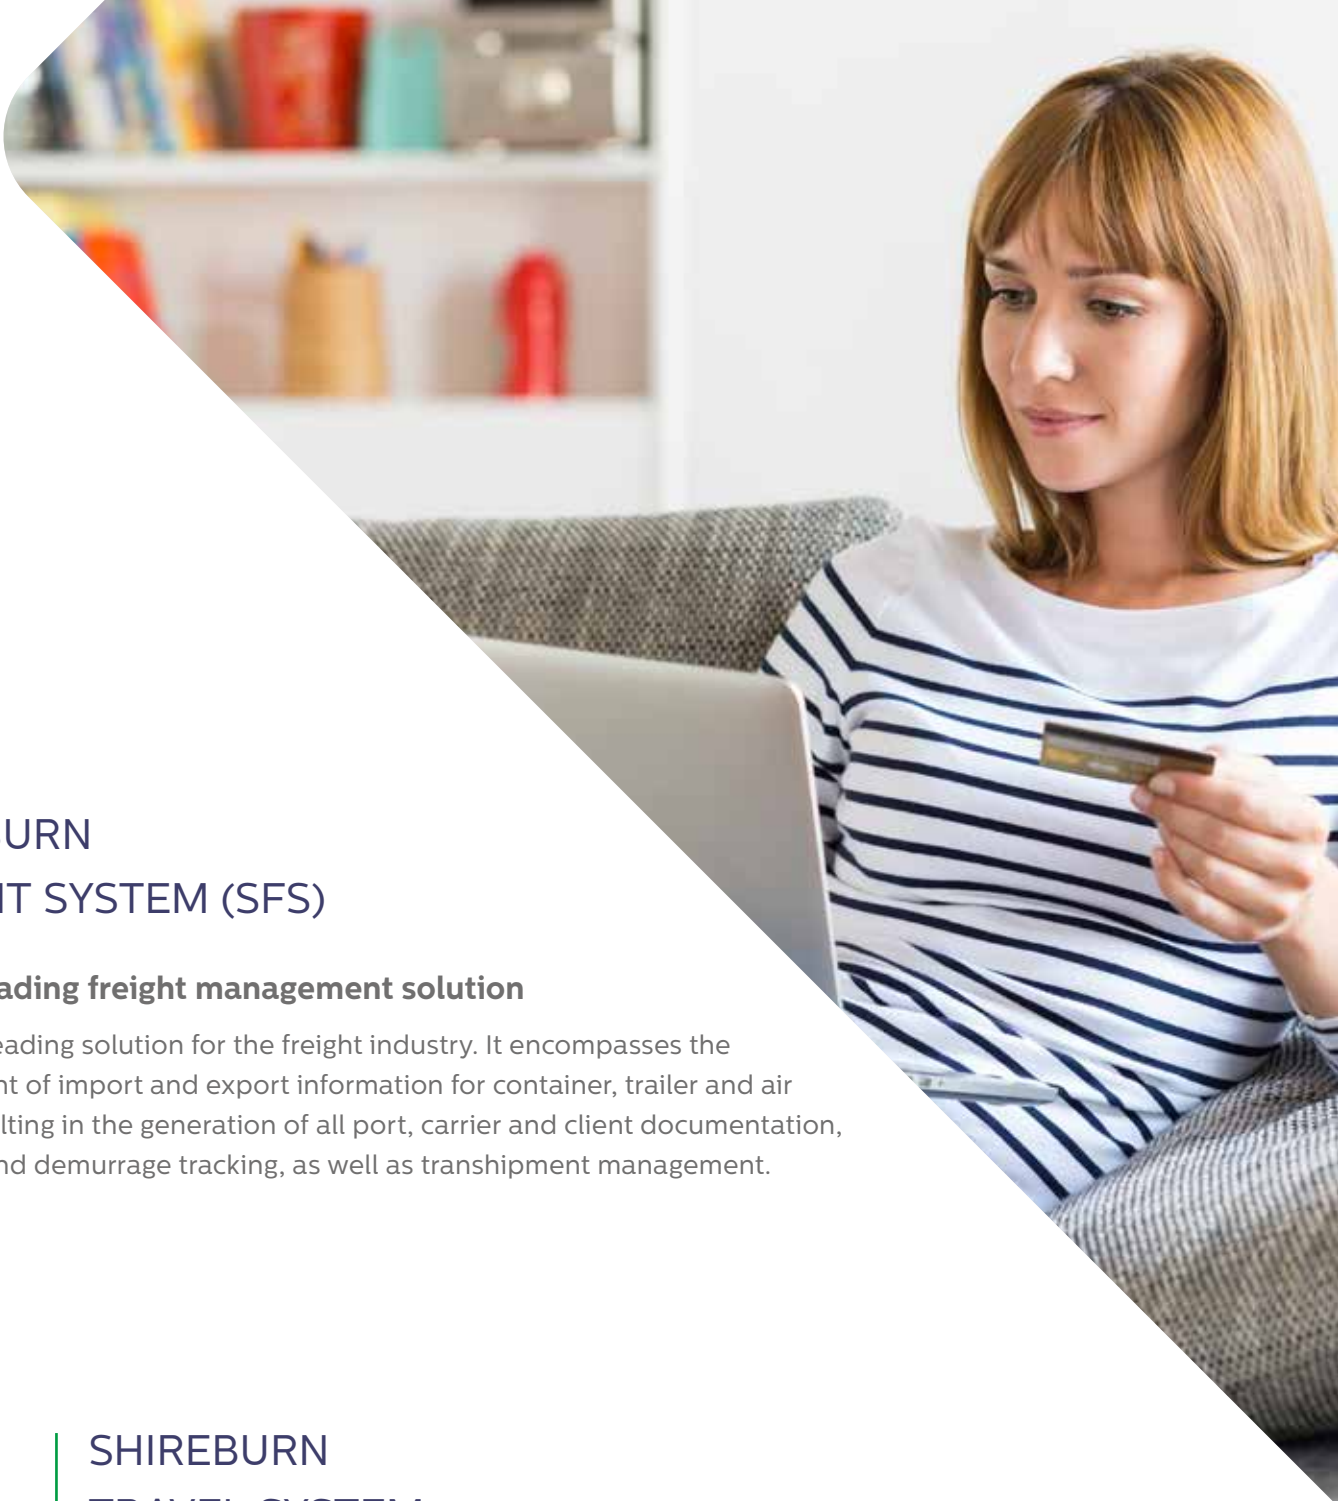

Flexible enough to accommodate any existing designs and branding, Shireburn eStore offers a single point for managing your data and stock, reducing overheads and offering better payment data management. With direct integration to SIMS and SFM straight out of the box, Shireburn eStore consolidates the entire sales funnel from sales to stock management and invoicing.

SHIREBURN DOCUMENT MANAGEMENT SYSTEM (DOCS)

Manage content easily and securely

Shireburn DOCS is a document management solution fully integrated with Shireburn's business solutions to be securely maintained and shared within your organisation.

SHIREBURN FREIGHT SYSTEM (SFS)

Malta's leading freight management solution

SFS is the leading solution for the freight industry. It encompasses the management of import and export information for container, trailer and air freight, resulting in the generation of all port, carrier and client documentation, container and demurrage tracking, as well as transshipment management.

SHIREBURN TRAVEL SYSTEM

Fully integrated travel booking solution

The Shireburn Travel System allows the effective management of travel bookings for outgoing business and financial transactions. It does this by integrating with SFM, offering an effective solution to maximise efficiency and provide a valuable infrastructure for your business growth.

Functions and features include ticket management, client / supplier details, sales posting, bookings/pre-posting, ticket refund, client receipts, accounting system interface and extensive reports amongst others.

SHIREBURN
INDIGO
PAYROLL

Cloud based solution comprising Payroll,
Leave Management and an Employee Portal.

- ✓ Apply for leave
- ✓ Approve leave
- ✓ View past payslips

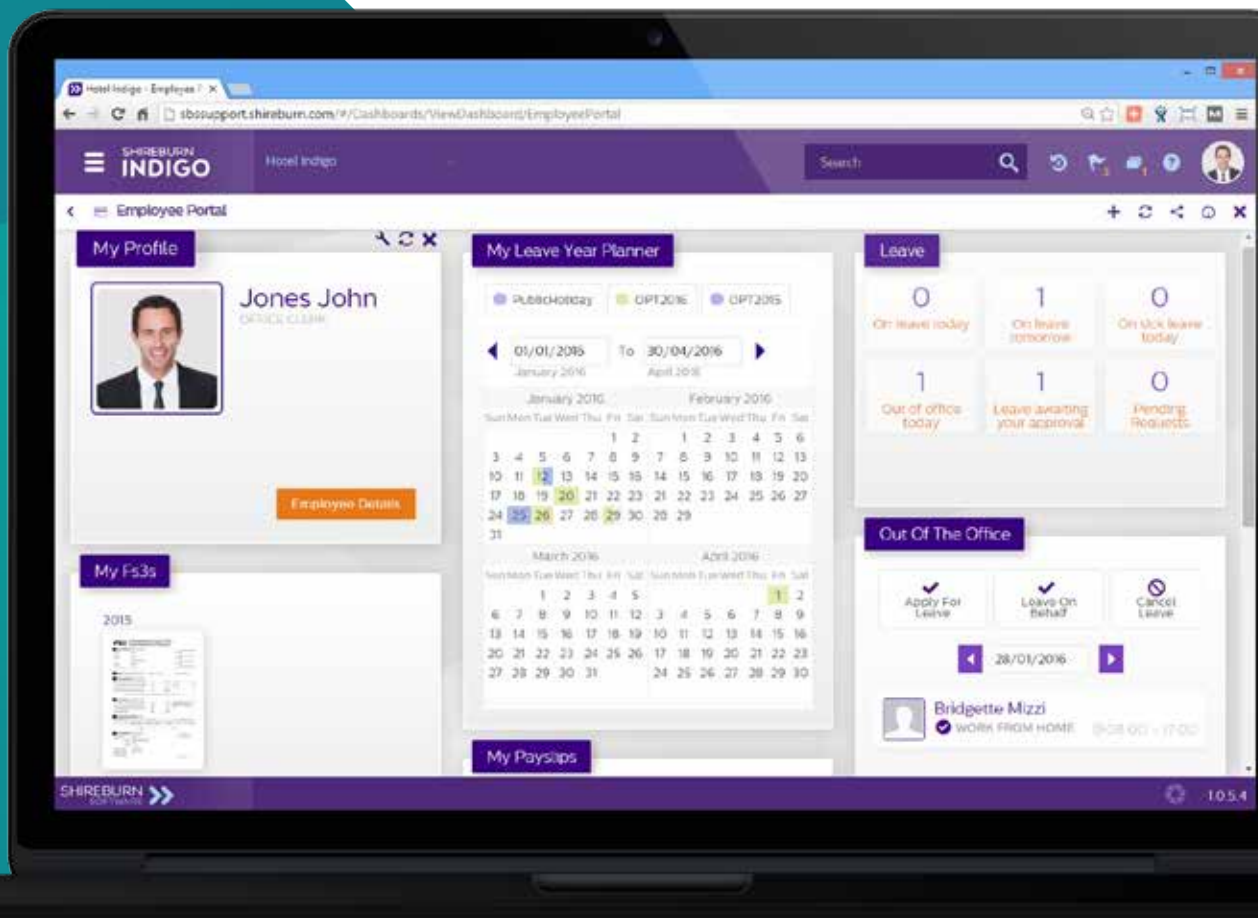

... and more!

Shireburn Indigo Payroll |

Cloud-based payroll and leave management with self-service employee portal.

Shireburn Indigo Payroll is a web-based payroll and leave management solution designed to automate and simplify the payroll process. It allows you to run your payroll with the greatest level of accuracy and security whilst giving you the flexibility to work from virtually anywhere.

The system is in compliance with Malta Government and Inland Revenue regulations, so you'll have everything you need to honour your legal obligations. But Shireburn Indigo Payroll delivers beyond that, giving you all the information and reporting you require to better manage and optimise the structure of your departments while enabling any-time self-service by your employees.

Concessionaire Analyzer +

Airport and Shopping Mall Management Solution

Boost concession-based revenues

Concessionaire Analyzer+ (CA+) is a software solution that enables airports and shopping malls to strategically manage and sustainably increase concession-based revenue.

With installations spanning from the local market to the rest of Europe, Latin-America and the Caribbean, CA+ is a truly modular and flexible solution that is helping airports and shopping malls improve performance and increase profits.

Using a comprehensive suite of data collection methods, CA+ is able to collect sales data at varying degrees of detail. Its Business Intelligence engine can analyse concessionaire sales data in depth to provide unprecedented insight into your commercial operations. CA+ also caters for commercial contract management to automate revenue calculation and billing with speed and efficiency.

Airports

Malls

Services

We take a holistic approach to your business requirements, offering technical consultancy, network services, systems auditing, as well as training and support for our users.

Collaborative Solutions

Collaborative tools are critical in today's business environment. They provide a platform to allow people to work together independently of time or place, and allow people to communicate beyond email. With more than 30 years' experience in the design, development and implementation of collaborative solutions, Shireburn can help find the right solution for your business.

Software Distribution

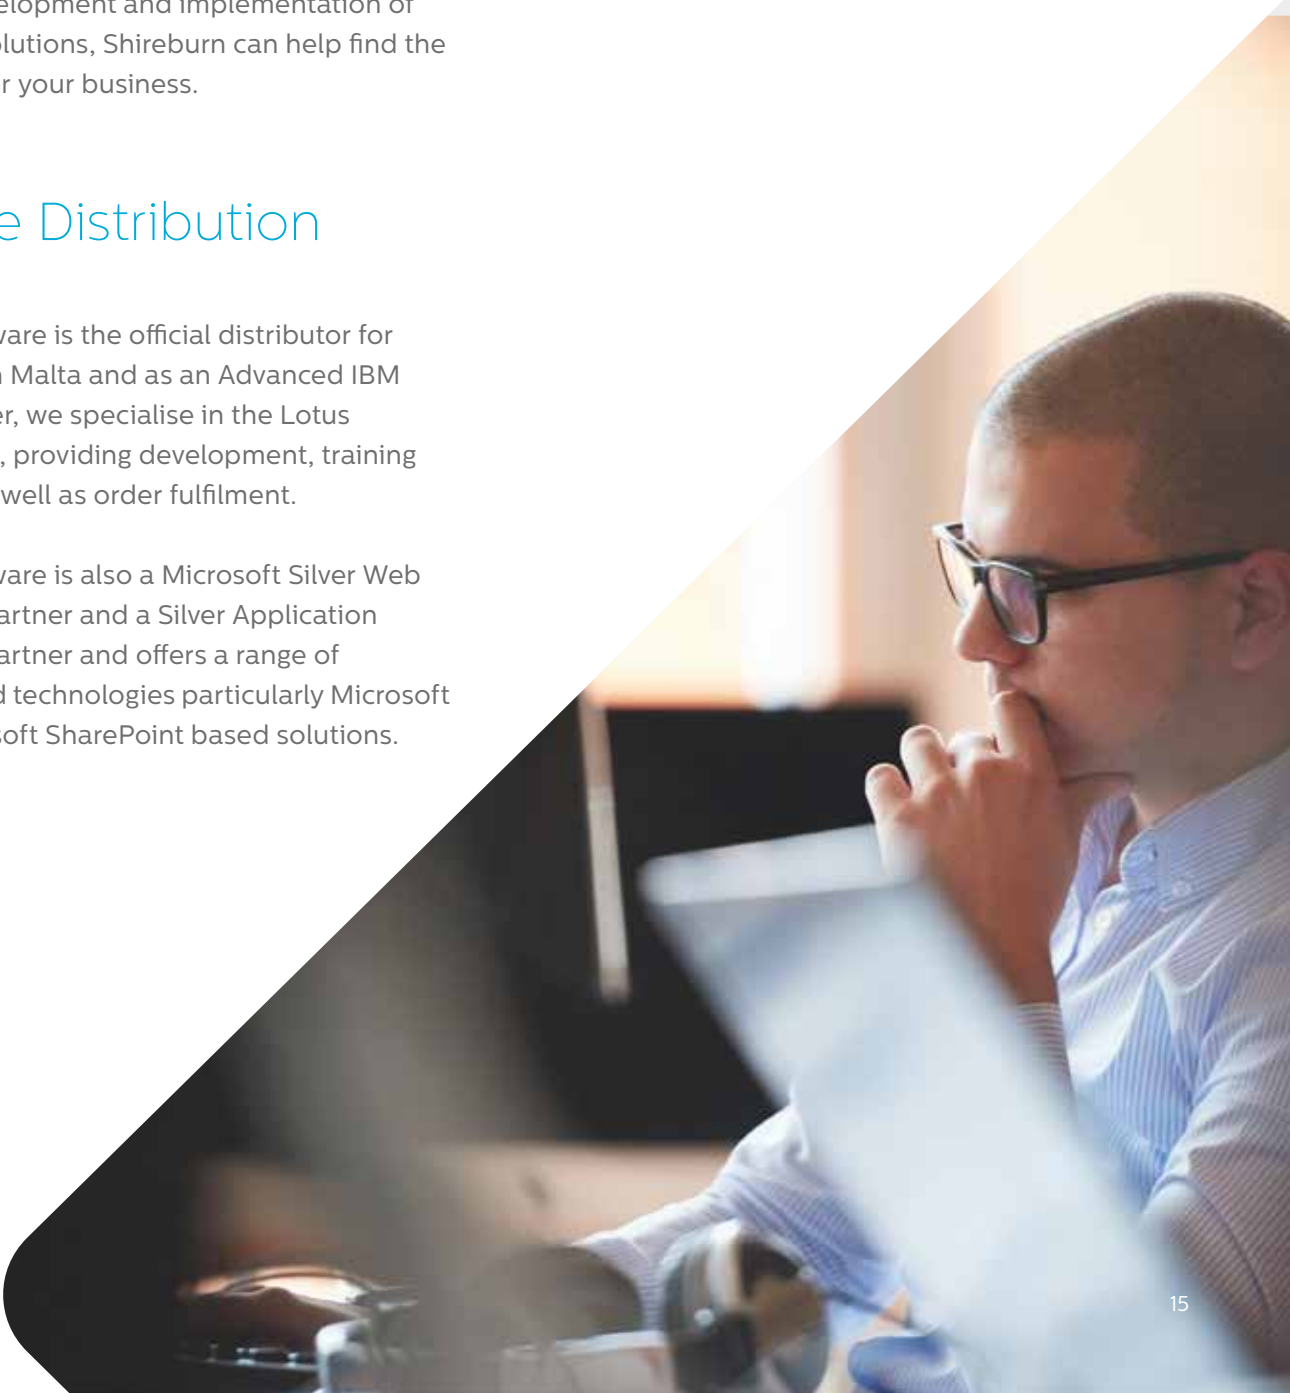

Shireburn Software is the official distributor for IBM Software in Malta and as an Advanced IBM Business Partner, we specialise in the Lotus Software brand, providing development, training and support as well as order fulfilment.

Shireburn Software is also a Microsoft Silver Web Development Partner and a Silver Application Development Partner and offers a range of Microsoft based technologies particularly Microsoft SQL and Microsoft SharePoint based solutions.

eSecurity and Business Continuity

Shireburn Software provides a range of solutions and services to assist you in protecting your IT infrastructure:

- ▶ Anti-Virus software
- ▶ Spam and Content Filtering
- ▶ Windows server availability and disaster recovery
- ▶ Security audits, consultancy and vulnerability assessments
- ▶ Secure data backup
