SHIREBURN
SOFTWARE 

Established in 1983, Shireburn Software specialise in assisting clients to identify improvement opportunities in their business processes and address them through the development and application of software solutions.

What We Do

- ▶ Development and support of business software products known as the **Shireburn Business Suite**, providing a core set of solutions for accounting, inventory, point-of-sale, document management and freight, amongst others
- ▶ Development and support of cloud based **Shireburn Indigo Payroll** offering easier and more flexible payroll administration to companies based in Malta
- ▶ Development and support of **CA+ Software Solutions** for Airports and Malls around the world
- ▶ Implementation and support of **eSecurity and Business Continuity** measures
- ▶ Provision of **Software User and Technical Support** as well as **Training services**

Our Services

E-SECURITY & BUSINESS CONTINUITY

Shireburn provides a range of solutions and services to assist businesses in protecting their IT infrastructure, from anti-virus solutions, spam and content filtering, server availability and disaster recovery, as well as audits, consultancy and assessments.

TECHNICAL & NETWORK SERVICES

Our Technical and Network Services team offer expertise through several different packages to ensure continuous availability at the right price point depending on our clients' requirements.

Our History

Shireburn Software began as a small software house developing bespoke solutions for accounting, payroll and stock control. Hard work and vision enabled Shireburn to stay ahead of the local market, and as demand grew, so did the Shireburn team and the range of solutions it developed and supported.

Today Shireburn has grown into a leading software products company committed to supporting businesses in enhancing their operations through increased efficiencies and better business processes. Shireburn's success story spans local and international markets with highly specialised solutions to address the needs of several businesses.

Our Clients

We pride ourselves with serving an ever-growing list of over 1000 clients, both locally and internationally, from SME's to larger corporations, each with their own business processes and challenges.

SOFTWARE SUPPORT & TRAINING

Shireburn's Support and Software Training team helps business clients to get the maximum out of their software investment through support packages and frequent training.

Our Products

SHIREBURN BUSINESS SUITE

SBS is a multi-channel solution, offering scalable support for the various modules available in the suite, allowing businesses to implement the systems that they require to support and improve their operation.

Solutions Available in the Suite:

- ▶ Shireburn Financial Manager
- ▶ Shireburn Inventory Management System
- ▶ Shireburn Point-of-Sale
- ▶ Shireburn Docs
- ▶ Shireburn Freight System

Shireburn Indigo Payroll is a web-based payroll, leave and attendance management solution, designed to automate and simplify the payroll process. Hosted on the Microsoft Azure cloud, it provides the availability and flexibility to work from anywhere, with the greatest level of productivity, accuracy, security and convenience.

Employees are able to use the employee portal to apply for leave, authorise leave, download payslips, FS3 and other documents, without having to resort to HR.

Concessionaire Analyzer+ is a Shireburn Software solution aimed at airports and shopping malls, enabling them to strategically manage and sustainably increase concession-based revenue. CA+ is able to help airport commercial teams to better manage their concession contracts, revenue calculation and billing, collect sales data from concessions at varying degrees of detail, and analyse such data with its Business Intelligence engine, providing unprecedented insight into commercial operations.

CA+ installations span from the local market to the rest of Europe, Africa, Latin-America and the Caribbean.
