SHIREBURN
SOFTWARE

Established in 1983, Shireburn Software specialise in assisting clients to identify improvement opportunities in their business processes and address them through the development and application of software solutions.

What We Do

- ▶ Development and support of business software products known as the **Shireburn Business Suite**, providing a core set of solutions for accounting, inventory and point of sale
- ▶ Development and support of **cloud based Shireburn Indigo Payroll, Leave and Time and Attendance solutions**
- ▶ Development and support of **CA+ Software Solutions for Airports and Malls**
- ▶ Provision of **Technical Support and Training services**

Our History

Shireburn Software began as a small software house developing bespoke solutions for accounting, payroll and stock control.

Hard work and vision enabled Shireburn to stay ahead of the local market, and as demand grew, so did the Shireburn team and the range of solutions it developed and supported.

Today Shireburn has grown into a leading software products company committed to supporting businesses in enhancing their operations through increased efficiencies and better business processes.

Shireburn's success story spans local and international markets with highly specialised solutions to address the needs of several businesses.

Our People

Shireburn Software attracts some of the best talent available due to its high integrity and strong work ethic, building an extensive internal skill set geared towards fulfilling our clients' needs and requirements.

Our industry-leading staff retention levels have contributed tremendously in offering consistent and exceptional customer care.

The strong work ethics of Shireburn's leaders permeate within the entire organisation, bringing the company together, working towards one goal. Today Shireburn Software employs a strong team of over 60 members.

Our Clients

We pride ourselves with serving an ever-growing list of over 1,100 clients, from SME's to larger corporations, each with their own business processes and challenges.

Our Vision

We are committed to
continuous development
of our software
with emerging technologies and new practices.

We maintain
high ethical standards
at all times,
enabling us to build solid relationships with our
clients, and continue to set an industry standard.

We consistently work towards
retaining our position as a
leading supplier of
integrated business solutions.

As we expand our team, we continue to
identify niche market
opportunities.

Shireburn's solutions provide you with high levels of integration across your business

Our Solutions

The **Shireburn Business Suite** is a fully integrated 360 degree solution for accounting, inventory and retail.

Shireburn Indigo is an award-winning, web-based, cloud platform for **Payroll and Leave Management**, as well as **Time and Attendance**, including rostering and scheduling.

Shireburn also developed and supports **Concessionaire Analyzer+**, a software solution that enables airports and shopping malls worldwide to better manage and increase their concession-based revenues.

Shireburn Business Suite

360° Integrated Business Solutions

The Shireburn Business Suite (SBS) enables effective management of accounting, inventory, and point of sale within one simple-to-use, integrated solution and allows organisations to automate processes, leverage information and monitor performance. SBS is a modular solution allowing implementation of any combination of modules so that you can invest only in the systems that your business requires.

SHIREBURN FINANCIAL MANAGER (SFM)

Accounting software that grows with your business

SFM is a fully fledged financial accounting solution that combines high-level capabilities with ease of implementation and use.

Easy to use by small to medium sized businesses, yet offering all of the capabilities required by larger organisations, SFM is the bedrock on which hundreds of local companies have built their accounting structures.

SHIREBURN INVENTORY MANAGEMENT SYSTEM (SIMS)

Optimise inventory management across multiple channels

SIMS is a cost-effective inventory management software solution, scalable for small and larger businesses, and modular to support a variety of different operational sectors, from retail to catering, wholesale and more.

It provides a complete, flexible and practical solution for your business, offering flexibility for the inevitable changes in a fast paced business environment.

SHIREBURN POINT-OF-SALE (SPOS)

Enhance your retail and hospitality channels

SPOS is a leading point-of-sale software solution for both retail and catering environments, small to medium sized businesses as well as larger multi-national franchises.

SPOS speeds up the sales process at the till with a fully configurable and easy-to-use display, whilst providing the structure and controls necessary for a robust inventory system.

Airport and Shopping Mall Management Solution

Boost concession-based revenues

Concessionaire Analyzer+ (CA+) is a software solution that enables airports and shopping malls to strategically manage and sustainably increase concession-based revenue.

With installations spanning from the local market to the rest of Europe, Latin-America and the Caribbean, CA+ is a truly modular and flexible solution that is helping airports and shopping malls improve performance and increase profits.

Using a comprehensive suite of data collection methods, CA+ is able to collect sales data at varying degrees of detail. Its Business Intelligence engine can analyse concessionaire sales data in depth to provide unprecedented insight into your commercial operations. CA+ also caters for commercial contract management to automate revenue calculation and billing with speed and efficiency.

SHIREBURN INDIGO

Shireburn Indigo is an award-winning, web-based, cloud platform for **PAYROLL & LEAVE** and **TIME & ATTENDANCE** management.

A unique software built on 35 years experience working alongside the HR and payroll teams of Malta's foremost business operations, large and small.

Shireburn Indigo simplifies your work, automates as many processes as possible, and provides you with a toolset to better manage your entire workflow, accessible from virtually anywhere.

Shireburn Indigo Payroll is a payroll and leave management cloud solution.

Built in Leave Management functionality allows you to set the organisation's hierarchy for leave approval processes.

A unique Employee Portal allows employees to manage their leave, view their payslips, past FS3s and more.

With Payroll and Leave management consolidated into one system you need not worry about discrepancies, and can enjoy the benefit of less administrative work to run your teams.

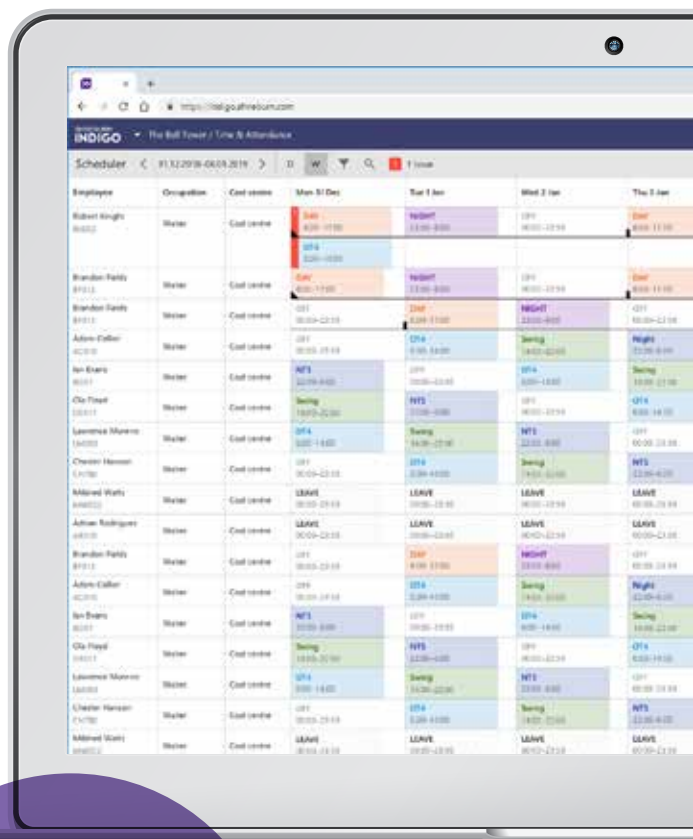

Shireburn Indigo Time & Attendance will be available as from January 2019.

A perfect complement to payroll, to streamline business processes in organisations where attendance management is central to operations.

A flexible platform for your diverse workforce that allows you to track, manage and control all elements of shift management and rostering.

A usable interface that allows managers to turnaround quicker rosters based on flexible shift presents and leave integration.
